VOL. XXXI.

RENO, WASHOE COUNTY, NEVADA, SUNDAY MORNING SEPTEMBER 22, 1889.

NO. 132.

## MISCELLANEOUS.

**W. D. ANDREWS,**  
—PROFESSOR OF—  
**VETERINARY DENTISTRY,**  
Office at Truckee Stable, Reno, Nevada.

**ALL EDUCATED VETERINARIANS ADVOCATE**  
Veterinary Dentistry, well knowing that no other method has yet been discovered that produces the same satisfactory result. But the front teeth of old horses so that the back teeth come together. Very few horses, young or old, but have more or less sharp edges or rough projections upon their molars. These sharp points lacerate the mouth, thereby causing torture to the horse, and he tries in various ways to rid himself of the trouble. Some toss the head, drool or slobber; others start suddenly or stop short, and some shy, drive sideways or hold their head in an unnatural manner.

Blindness in one or both eyes, a rough coat of hair, a suffering horse and disagreeable driver, is caused by a defective mouth. I carefully remove all irregularities and place the mouth in a level, natural condition.

Veterinary dentistry is an act of humanity. It not only relieves suffering but produces a safe, pleasant driver, and gives the healthy horse whose life is prolonged at least five years.

I have had eight years' experience in this business and am qualified to give thorough satisfaction.

## DAILY NEVADA STATE JOURNAL

G. C. POWNING, Editor and Proprietor

## THE LAND OFFICE.

Transactions of the Last Fiscal Year—Acting Commissioner Stone Criticizes Sparks' Orders.

WASHINGTON, Sept. 19.—Acting Commissioner Stone, in forwarding to the Secretary of the Interior his annual report, states that it covers the doings of the General Land Office for eleven months under the administration of his predecessor, and only one month after his own management. This gives the present Administration practically but one month in the consideration of land matters in the last fiscal year. Commissioner Stone asserts that the returns from 107 local land offices and the several public land offices of the States and Territories have been met by no corresponding increase of clerical force by Congress, and that the prevalence in the office of mistaken practices has had the effect of obstructing rather than facilitating the proper transaction of business. On investigating the conditions of the office the acting Commissioner found upon assuming the duties of his office, that the methods of the last Administration had not in any way expedited business, a fact that there had been an accumulation and increase over former Adams ratios which was due to Sparks' order of April 3, 1885, suspending action on all timber, desert land and pre-emption entries up to that date. This action of Mr. Sparks the acting Commissioner claims to have been without authority of law or departmental approval, and it was received with a reluctant and universal complaint from all portions of the country. It led to an accumulation of unjust claims to a burdensome extent and greatly discouraged settlement upon the public domain.

COMMISSIONER SPARKS' ORDERS.  
It is further given to a considerable extent to Sparks' orders, which are commented upon by the Acting Commissioner with a sharpness of criticism which has not been paralleled. Mr. Stone says that entering upon his duties on the 1st of June and regarding the Board of Review as unnecessary and obstructing, he determined to dispense with it. He found that there was an accumulation of nearly 18,000 cases, and he succeeded in so reorganizing the method of doing business in that division that by the 1st of July following the entire mass of pending cases was disposed of, and an order was issued discontinuing the Board of Review. In order to justify the abolition of this Board the Acting Commissioner submits a statement showing that the number of patents issued for the year 1886 was 19,885, for the year ending 1887 24,550 and for the year 1888 47,170, and for the fiscal year ending June 30, 1889, 60,141. During the first 11 months of last year, under former methods of work, there were issued 53,618 patents, a monthly average of 4,874, while during the month of June of said year there were issued 16,523 patents, a gratifying increase over the former management.

During the fiscal year ending the 30th of June last 70,141 patents were issued.

THE LARGE AREA GRANTED.  
These figures will show that title has been passed from the United States to 11,791,120 acres of land compared with 8,605,195 acres for the preceding year, a net increase in 1889 of 3,185,924 acres over 1888. During the year 913 patents for mineral lands and 165 patents for coal lands were issued as follows: New Mexico 737 acres, Washington 1,418 acres.

There were patented to railroads lands as follows: California 2,646 acres, out of a total to other States of 425,046 acres. Swamp lands were patented to States to the extent of 259,722 acres of which Oregon secured 72,272 acres. During the year there were 132,351 acres of land granted to the various States, of which California secured 10,530 acres of school indemnity lands and Oregon 15,338 acres of the same class of lands and 490 acres of University lands. During the year railroad selections amounting to 29,444 acres were pending in the Department, there were also Oregon Wagon-road selections pending to the amount of 304,937 acres, and swamp selections amounting to over 2,000,000 acres. There were pending at the beginning of the year 12,400 miles of Indian reservations and 1,795,621 acres for educational and internal improvements.

## CASH RECEIPTS.

The cash receipts of the Land Office for the year were \$9,635,933. There was a decrease as compared with the preceding year of \$3,051,237. The decrease was due largely to the decrease of cash surpluses. Surveys of public lands were accepted to the following extent: California, 8,855 acres, Oregon, 78,829 acres, Washington, 126,972 acres. Apportionments for the survey of lands were made as follows for the past year: California, \$7,000, Arizona, \$1,000; New Mexico, \$5,000, Oregon, \$6,000, Washington Territory, \$9,000. Three contracts were awarded in Arizona, eight contracts in California, nine contracts in Oregon and seven contracts in Washington Territory.

## IRREGULAR ACCOUNTS.

The Acting Commissioner also deems it his duty to invite attention to certain allowances made to deputy surveyors at different times from 1872 to 1884 inclusive, under what is known as the "deposited system." After quoting the Acts of Congress authorizing the system and explaining the regulations covering the same, the Acting Commissioner defines the duties of his office in relation to a settlement of the same and upbraid the First Comptroller for intermeddling. He then says the Commissioner only has authority to audit and

settle all public land accounts, but the First Comptroller saw fit to evade the statutes and overrule the express provisions of the statutes and organic act establishing the Land Office. "It is true that the law provides that the decision of the Comptroller in matters of accounts shall be binding upon the Executive departments, but as I understand it, that refers only to vouchers and accounts presented for such action and not to accounts long since settled and concluded."

## WORKING A HOG.

Two Men and a Boy Put Up a Job and "skinned the Town."

When I entered the village, situated among the hills of New York, at 10 o'clock in the morning all was peaceful and serene, and the pocket of every man who walked the streets had chink in it. When I left at 4 p. m. an excited mob had possession of the main street, and every other man was dead broke. About noon a man arrived from the north in a buggy. He said he was a drover, and looking for hogs. He bought half a dozen before he ate dinner, and it was astonishing how closely he guessed at their live weight. He was within two pounds on four of them, and only half a pound more on the others. These had been an attraction for a crowd of idlers, and the general verdict was that the drover was as sharp as a barber's razor. Soon after dinner a farmer looking for a hog into town, and asked him out in front of the tavern. As he wanted to sell and the drover wanted to buy, they soon came together.

"Might take him on a punch, but he's only a nubbins," said the drover as he sized the porker up.

"Nubbins! Why, that pig goes over 200 pounds!" exclaimed the owner.

"Can't stuff me, boy. I've been in the business twenty years."

"No one wants to stuff. That 'ere hog goes to 210."

"He does, eh? Wish your father had come in. I'd like to make a bet with him. Boy, you ought to have better judgment. That hog won't pull down 180."

"Guess you are off, too," remarked a stranger who had quietly driven up in a buggy. "I've raised hogs all my life, and that boy hasn't five pounds out of his guess."

"Ain't he! Raised hogs, have you? Ever raise any money?"

"A little."

"Perhaps you'd like to bet on that hog?"

"Perliaps."

"Have you got \$20 as says he goes 200?"

"I have—fifty—a hundred!"

"Then let's chalk. Anybody can blow."

It was a chance to make a dollar, and the citizens improved it. The man in the buggy was an accommodating chap, and somehow or other the farmer boy managed to fish up about \$100 from the hind pocket of his overalls.

The citizens stuck by the drover, having abundant proofs of his judgment, and when every man in that town who had a loose dollar or could borrow one had made his bet the hog was driven to the scales and weighed.

"Gentlemen," said the drover just before the weighing, "I was never deceived in my life. This hog won't go to 130 pounds."

"I'll take even bets that he goes over 200," replied the man in the buggy.

This bluff raked out the last nickel in the crowd, and the hog was weighed. He was weighed and reweighed, but the figures stood.

"Well, it's my first error in a hog," said the drover, and all bets were at once handed over. The farmer boy slipped out, the two men drove off in the buggy, and half an hour had elapsed before a church deacon, who had laid his ten with the drover and lost, suddenly declared that it was a put-up job to skin the town.

"Durn my buttons if it ain't!" yelled 200 men in chorus, but it was too late. The town had been skinned, and the trio had escaped. All the mob could do was to turn loose and wreck an old vinegar factory and pass a resolution to the effect that liberty was a sham and a delusion.—New York Sun.

## The Smoker's Best Plea.

The experiments of V. Tscherni will rejoice the hearts of many smokers. He cemented together by their wide mouths two glass funnels so as to form a cigar holder, with a large chamber in the middle. In this chamber was suspended from a loop of platinum a small piece of linen. At one end of this cigar holder was a plug of cotton wool, acting as a smoke filter. A cigar was placed in the other end, lighted, and smoke ascending from the mouth of the smoker being attached to the filtering end. By this arrangement the piece of linen was surrounded by a dense cloud of tobacco smoke.

At the end of half an hour, during which three and a half to four grammes (about one-eighth of an ounce) of tobacco was smoked, the chamber was opened and the linen allowed to fall into a test tube containing fluid gelatine in which were planted colonies of seven varieties of pathogenic microbes, including those of cholera, anthrax (chicken cholera) and pneumonia. In every instance there was a marked delay in the development of these colonies as compared with what occurred in similar test tubes charged with the same, but not exposed to tobacco smoke, the development to the foot, there any apparent difference between this horse and any other. But at the eastern point, or lower end of the shin bone, the branch begins, and two perfectly formed feet are found on each of the four legs. The horse runs on the range the same and as fast as most of them, and all eight feet are shod, or may be if desired. McCloud has refused \$2,500 for a half interest in the curiosity, but he wants \$5,000 outright for the whole animal.—Madison Journal.

## A Horse with Eight Feet.

James McCloud, of Lodi, owns a horse on his Dakota farm which has eight feet. It is perfectly formed in all respects, except that it has eight feet. Not until the pasterns or fetlock joints are reached in the descent from the shoulder to the foot, is there any apparent difference between this horse and any other. But at the eastern point, or lower end of the shin bone, the branch begins, and two perfectly formed feet are found on each of the four legs. The horse runs on the range the same and as fast as most of them, and all eight feet are shod, or may be if desired. McCloud has refused \$2,500 for a half interest in the curiosity, but he wants \$5,000 outright for the whole animal.—Madison Journal.

## An Unexpected Way of Putting It.

"Mabel," said Henry, and in spite of his effort to control himself the voice was tremulous, and he spoke with the air of timid desperation which marks the elocution of a man about to ask for the loan of \$5. "Mabel, I do not kneel at your feet" (and he wasn't—he was sitting bolt upright on a sofa) "to plead for myself. I come here only to beg you to think of my brother George. He—he loves you dearly, Mabel, and should you refuse his plea I tremble for the consequences. He is alone in the world, and he wants a sister-in-law. Oh, will you not be one to him?"—London Tid Bits.

## Subject of Irrigation.

WASHINGTON, Sept. 20.—In his annual report, made public yesterday, the Commissioner of the General Land Office discusses at some length the subject of irrigation. He shows that the following reservoir sites in California have been withdrawn from settlement the past summer.

Clear lake, Lake county, together with all the lands situated within two statute miles of the borders of said lake at high water.

Independence lake, Nevada county, together with the lands bordering thereon.

The lands included in said site are situated in sections 2, 3, 4, 5, 8, 9, 10, in township 18 north, range 15 east, the quarter of section 32, and sections 33, 34 and 35, in township 19 north, range 15 east.

Donner lake, Nevada county, together with lands adjacent. The lands mentioned in said site are situated in sections 10, 11, 12, 13, 14, 15, 22, 23, 24, of township 17 north, range 15 east, and sections 7, 8, 15, 18, 19, 20, of township 15 north, range 16 east.

Webber lake, Sierra county, together with lands bordering thereon. The lands included in said site are situated in sections 20, 21, 22, 27, 28, 29, 32, 33, 34, township 19 north, range 14 east, M. D. M.

The Commissioner prints extended extracts from the reports of Surveyor Generals of various States and Territories bearing on the subject of irrigation. The Surveyor General of Nevada speaks encouragingly of the prospects for this State in case the Government's irrigation scheme is carried out, and deprecatingly of the conditions now existing in that State with relation to the annual rainfall and the necessity for the adoption of some system of irrigation.

A Railroad Engineer Killed by One of His Companions.

DUNSMITH, (Cal.), Sept. 19.—A little after 9 o'clock last evening F. D. Lake, an engineer on the railroad, was accidentally shot and killed. He and several companions were joking together when a Colt's revolver, in the hands of one of the party, was accidentally discharged. The ball entered the left nipple. He gave the address of his family and then expired. He leaves a widow and two children at 37½ McAllister street, San Francisco.

Mc All Withdraws.

LAWRENCE, Mass., Sept. 21.—Major Merrill this morning telegraphed Major Warner in Washington, absolutely withdrawing his (Merrill's) name from all consideration in connection with the office of Pension Commissioner.

The Administration Denounced.

ELMHURST, N. Y., Sept. 21.—The H. C. Hoffman Post, G. A. R., has unanimously adopted resolutions in condemnation of the Administration for demanding the resignation of "our honest and honorable comrade, James Tanner, of whose integrity and loyalty there can be no doubt."

The following advertisement appeared in a recent number of the London Tablet:

"To parents—Unruly girls and boys of any age visited and punished at their homes by a thorough disciplinarian accustomed to administer corporal punishment. All bad habits cured by one or two attendances. Fee, 5 shillings for two visits. Address 'Birch'."

The owners of Canadian vessels which were seized in Behring Sea have advised Governor General Stanley that they will take advantage of his visit to British Columbia to protest formally against the inaction of the British Government, and to urge upon him the necessity of immediate action.

The President says that instead of protecting himself from the Grand Army of the Republic he would turn to them for a guard if he ever needed one.

Nevadans Make An Exhibit.

The Sacramento Record-Union says:

Mrs. R. M. Clarke, of Carson, Nevada, makes a fine display of Kensington stitch, rope silk and various embroideries. The work is done on such bed-spreads, fire-screens, scarfs, sofa pillows, etc. Thirty-two pieces of work are exhibited. There is nothing superior in the Pavilion.

Miss Carrie Belknap (13 years old), of Carson City, Nevada, makes an exhibit in the south gallery of 30 pieces of hand-painted porcelain which shows a high degree of art for one so young. Four oil paintings are also shown of equal merit.

The Autumnal Equinox.

The autumnal equinox occurs next Monday, when the sun is over the equator and when the days and nights are of equal length all over the world. There is a popular notion that a storm occurs about the time the sun crosses the equator, but experience proves that it is a mistaken notion so far as Nevada is concerned.

The ladies of Carson are taking a lively interest in the coming District Fair and the fancy work exhibit at the pavilion promises to be far ahead of anything ever seen in Nevada.—Tribune.

Are the ladies of Reno doing as well for the State Fair?

T. K. MYNERS,

Widened, Sept. 19, 1889.

## OPERA HOUSE DRY GOODS STORE.

## THE OPERA HOUSE

## Dry Goods Store.

This store is now being generally known all over the State of Nevada as the popular

## ONE PRICE

Dry Goods House, and its proprietor, C. W. Booton, is well known as the

## Revolutionizer of Prices and Re-adjuster of Values

—IN—

## STAPLE &amp; FANCY DRY GOODS

## GENTS' FURNISHINGS,

## HOUSEHOLD FURNISHINGS,

## READY-MADE CLOTHING

## And BOOTS AND SHOES.

Please note the various reasons by which I claim I have advantage over all competing houses:

1st. I BUY FOR CASH, and cash only.

2d. I VISIT THE MARKETS IN PERSON, frequently, and buy my own goods myself, for the lowest possible spot cash price.

3d. MY AIM AND AMBITION IS BIG BUSINESS, quick sales and small profits. This is what I claim and what I hustle for. Having this object in view—to give everybody good value for their money—success is already achieved, as I challenge anyone to dispute that I make the lowest prices.

4th. MY STORE IS THE THE LARGEST AND BEST LIGHTED of any in the city—the three large plate glass show windows which ornament the building would do credit to any large store in a large Eastern city, light being of great importance in any well-regulated store.

5th. I ENGAGE THE BEST AND MOST EXPERIENCED AND SKILLED SALESMEN that can be found in this country. W. R. L. has full charge of my store, his experience is second to none in this country, having had charge of departments for many years in the leading houses of New York City.

6th. I DO JUST AS I ADVISE. I do not advertise my goods at cost, as no intelligent person could swallow so silly an announcement as that. Nevertheless many of our merchants of to-day advertise under the head of selling goods at cost.

7th. ALL GOODS ARE MARKED IN PLAIN FIGURES, and no goods are misrepresented.

HAVING GIVEN SEVEN REASONS WHY I LEAD ALL COMPETING houses in prices, I will venture still further to convince the general public by mentioning the contents of the different departments, thus showing that I carry an enormous and well-selected stock, which can only be fully realized by calling and examining the goods of the different departments.

## In the Colored Dress Goods Department

I keep all the leading shades in plain colors, including the French Cashmeres, French Camel's Hair, Beatrice Cloths, French Poire, Ermit Cloths, Tricotine Cloths, Albatross, Nuns' Veiling, French Debeiges, Fancy Striped Alpaca in plaids and stripes. I keep all the leading patterns found in the market.

## The Black Goods Department

Is well stocked with all the latest and best known brands of French Cashmeres, French Camel's Hair, French Soles, Albatross, Nuns' Veiling, Sicilian Cloths and all the leading brands of Black Alpaca, Black and Colored Silks in all the different makes.

## The Corset Department

Deserves special attention, as I carry all the leading makes, including the famous C. P. Corset, and also the P. D., which I sell at prices that defy competition.

## The Kid Glove and Button Department

Is replete with all the shades that can possibly be obtained this side of the Rocky mountains.

## The Hosiery Department

Deserves special mention, as I have been supplying it during the past two weeks with the very best brands of Ladies' Cotton and also Wool Hosiery that are manufactured on this coast. My stock of Ladies' Misses', Children's and Men's Hosiery is unsurpassed in the city. Passing on we come to the

## Shoe Department.

This is a special branch that I have added to my business by special request of my customers, who continually urged me to put in a stock of Boots and Shoes, claiming, as they said—I using their own language—they were tired of paying high prices any longer. I subsequently ordered the above stock, and will say that my success in that department has surpassed all my expectations. Men's and Boys' Shoes a specialty. Men's Shoes from \$2.50 up.

## In the Clothing Department

I cannot do it justice by venturing to describe the success that continually attends it. I can only add one passing remark—that the amount of clothing I have sold during the past year is a just guarantee that the public never fail to appreciate a ONE PRICE cash business. I sell suits for men from \$5 up.

## In the Underwear Department,

Including Ladies' and Gents', I positively state that I sold more of these during the last season than any two competing houses. Knowing this, and then looking forward for an enormously increased trade in this line coming Fall and Winter, I have spared no pains and have left nothing undone to secure one of the largest and best-selected stocks of Underwear ever brought to Reno. This true assertion will be more forcibly strengthened by anyone doubting it to call and examine the stock.

## In the Domestic Department

I carry all the principal makes in Sheetings, Pillowcase Muslins, etc. Gingham and Calicoes in endless variety.

Thanking the People of Reno and the Public in General for their Kind Patronage for the Past Year, and Soliciting a Continuance of the Same, I Remain, Respectfully,

C. W. BOOTON,

Opera House Dry Goods Store.

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

# RENO!

Is the Railroad Center of Nevada.

# RENO

Is the Educational Center of Nevada.

# RENO

Is the Healthiest Town in Nevada.

# RENO

Is Great, and Alfalfa is King!

The Safest Investment

IN THE STATE

# RENO PROPERTY

Is the Cheapest on the Coast in comparison with that of other cities.

# RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

# RENO!

Has 5,000 Population and is

Growing Rapidly.

ern Oregon

# RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

STATE FAIR, 1889.

REMARKS AND CONDITIONS:

Entries to running purses and stakes must be made to the Secretary, on or before August 15, 1889.

Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race at 6 P. M.

Entries to all trotting and pacing races close Sept 1st.

Five or more to enter, and three or more to start in all races for purses.

National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races.

All trotting and pacing races are the best three in five, unless otherwise specified, two to start and three to start. But the Board reserves the right to hold a less number than five to fill, by a withdrawal of a proportionate amount of the purse. Entrance fee, per cent on purse, to accompany nomination.

National Association rules to govern trotting, but the Board reserves the right to alter any of any day's racing, or to trot a special race, or to alter a horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of all races appear, they may contest for the entrance money to be divided as follows: 60% to the first and 30% to the second.

No horse shall receive more than one premium. In all purses entries not declared out by 6 P. M. of the day preceding the race shall be required to start.

When there is more than one entry by one person, or in one interest, the particular horse they are to start must be named by 6 P. M. of the day preceding the race. No money paid for a walk-over.

Racing colors to be named in entry.

In trotting races drivers will be required to wear caps of distinct colors which must be named in their entries.

Each day's races will commence promptly at 1 o'clock P. M.

All entries must be directed to C. H. Stoddard, Reno, Nevada.

THEODORE WINTERS, President.

C. H. STODDARD, Secretary.

23.—Running—1 1/2 mile dash and repeat, Purse \$250.  
24.—Consolation purse.

RULES OF THE TRACK.

Entrance to all trotting and running races to be made with the Secretary at 9 o'clock P. M. on Tuesday, August 20, 1889.

All entries to be made in writing, to give sex, color and marks of horses. Also name and residence of owner, and in rural places, owners to be worn by rider, and any other particulars that will enable the audience to distinguish the horse in the race.

Write "Entries to Races," on outside of envelope and seal.

Entrance fee ten percent of purse, to accompany entries.

In all races, 5 or more to enter and 3 or more to start.

National Association rules to govern trotting, but the Board reserves the right to alter any of any day's racing, or to trot a special race, or to alter a horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of all races appear, they may contest for the entrance money to be divided as follows: 60% to the first and 30% to the second.

The Board reserves the right to change the order of each day's races.

For a walk-over in any race a horse shall be entitled only to his own entrance fee and one-half of the entrance received from the other entrants for said purse, and a horse winning a race entitled to first money only, except when distancing the field, then entitled to first and third money only. A horse wins but no money under any other circumstances.

The attention of all parties interested is particularly called to the rules of the National Trotting Association, under the provisions of which, except in cases specified, all mares appearing in the trotting races will be conducted by consent of the Judges.

J. W. THOMPSON, President.  
P. L. HALLSTED, Secretary, Quincy.

TEHAMA COUNTY,

10,375 27-100 Acres.

Township 25 N, Range 7 W, Mt.

Diablo Meridian.

This township lies on the eastern slope of the Coast Range, Red Bluff, the county seat of Tehama County. The field notes of the U. S. Survey or who laid out this township, says "This township is well adapted for grazing, as it affords pasturage for large herds of cattle. It is well watered by the various tributaries of Alder Creek. It is also very valuable for its timber, which consists of a heavy growth of yellow and sugar pine, spruce, and cedar. There is a heavy undergrowth of chaparral, chemical and manzanita. The even sections are in most instances government land, so that the parts most valuable as adjuncts to this range might easily be secured at government price, namely, \$1.00 per acre for single quarter sections.

In Section 9, coal was discovered recently by some herders, but nothing has been done to develop the mine, although samples which have been tested show the coal to be of excellent quality.

We are assured that a Railroad heading for the Coast, and running through the Coast Range timber belt will be built very near this ranch. Price for the whole, consisting of 10,375 27-100 acres will be \$45,000.

TERMS—One-third cash, and balance in two equal yearly payments. Apply to GREENWOOD & DEWOLF, Owners, No. 415 Montgomery Street, S. F.

Or at JOURNAL OFFICE, Reno, Nevada.

NOTICE.
